City Manager's Letter

The Honorable Brian Vincent, Mayor

Members of the City Council

Dear Mayor and City Council:

We have had another great year in West Point City. The FY2026 budget is summarized in the table below. In the detailed budget, Fund Balance and Transfers-In are reported as revenue, while Transfers-Out are reported as expenditures.

	Revenue	Fund Balance	Transfers In	Expenditures	Transfers Out
General Fund	\$5,456,223	\$800,000	\$0	\$4,785,961	\$1,470,262
Special Revenue Fund	\$2,142,454	\$732,497	\$550,000	\$3,424,951	\$0
Capital Projects Fund	\$9,223,062	\$3,456,375	\$344,262	\$13,023,699	\$0
Waste Fund	\$27,880,200	\$182,110	\$0	\$28,062,310	\$0
Water Fund	\$2,138,696	\$1,037,300	\$0	\$3,175,996	\$0
Storm Water Fund	\$360,250	\$92,603	\$0	\$452,853	\$0
Debt Service Fund	\$0	\$0	\$0	\$0	\$0
CDRA Fund	\$140,000	\$0	\$576,000	\$716,000	\$0
Total	\$47,340,885	\$6,300,885	\$1,470,262	\$53,641,770	\$1,470,262

General Fund revenues have been steadily increasing since 2012, with a sharp increase in the last 5 years, as shown in the graph below. Significant revenue streams in the General Fund include Sales Tax, Property Tax, Energy Sales and Use Tax, Interest Income, and Class C road revenue. Interest Income is the reason it jumped so much the past two Fiscal Years. We continue to budget General Fund revenues conservatively due to sensitivity to several economic factors. We propose a General Fund revenue budget of \$5,456,223, which includes \$800,000 of fund balance.

There are a few changes made in this year's budget. The changes include:

General Government (Total: \$2,000)

With a new budget year beginning, we are excited to continue providing the services that make West Point City a wonderful place to live and do business. This budget contains not only estimates and limitations on the use of City resources, but it also shares a vision, identifies priorities, and sets expectations for the work of the coming year. I appreciate the effort and contributions of all who have participated in the budget process, including residents, staff, and the City Council, and commit our best efforts to carrying out this budget plan.

We are very fortunate to live, work, and serve in this exceptional community. We recognize our responsibility to be honorable stewards for the public good. We look forward to another great year in West Point City!

Respectfully Submitted,

Kyle Laws

City Manager

History of West Point City

West Point City enjoys a strong agricultural and pioneer heritage. Founded on the shores of the Great Salt Lake, this jewel of Northern Utah has found a way to embrace the 21st Century while not losing sight of those values and qualities woven into the fabric of the past.

The first permanent settler in West Point City was James Hale. In 1863, Mr. Hale formed a network of dugouts on the shore of the Great Salt Lake and actually made a living by gathering salt. The first family to strike the ground with a plow in West Point City was the family of Levi Hammon in 1866. The new agricultural hamlet attracted other settlers to what was then known as "South Hooper."

Erastus Fisher as a young man

In 1877 Hooper was divided. The city continued to bridge Weber and Davis Counties while South Hooper was placed entirely in Davis County. The area continued to attract ranchers and farmers as portions of nearby Kaysville and South Weber were annexed into South Hooper in the late 19th Century.

Several names had been chosen for this area including Muskrat Springs (because of the large muskrat population which continues in the area), Sandridge (because of the ridge of sandy backwash the ancient Lake Bonneville had thrown onto the shore) and Fruitia (because of the many beautiful fruit orchards in the area).

On May 29, 1910, Erastus Fisher suggested changing the name of South Hooper to West Point because it was located at the westernmost point of Davis County.

Although the name was adopted, it wasn't until September 3, 1935 that West Point City was incorporated. At that time, a mere 87 families lived within the city's boundary.

The Davis County Commission appointed five men as West Point Town's first officers: Ward C. Holbrook as Town President, Alvin B. Waite as Secretary/Treasurer, Ulyss R. Thurgood as Water Superintendent, and John Fisher and Amos Roy Cook as Board Members.

The first town hall was built by Robert L. Nilson in 1957. It was used for City meetings, collecting water bills and record keeping.

Total Incorporated Area

The total incorporated area for West Point City is approximately 7 square miles. Another 3 square miles is included in the City's annexation plan. The incorporation of this area would give West Point City the third largest incorporated land area in Davis County.

Community Statistics

According to 2024 population estimates, West Point City is a community of 12,726 citizens. West Point City is situated on the Northeastern shore of The Great Salt Lake in Davis County, Utah. The City lies approximately 15 miles south of Ogden and 25 miles north of Salt Lake City.

The current build-out population of West Point City is approximately 26,500 residents. A factor which will likely increase this number is the possibility of the City annexing another three square miles of unincorporated Davis County situated northwest of and contiguous to West Point City. Such an acquisition would enable the City to add another 15,000 residents.

Like many communities in Utah, West Point City's largest age group consists of residents under the age of 20. The average age for West Point City is 35 years of age. Over half of the City's residents are under the age of 40.

West Point City's median annual household income is approximately \$118,660. This is about 143% of the national median household income. Contributing to this statistic is the high percentage of West Point adults being employed in professional or managerial occupations.

When asked what determines a high quality of life, most residents and business owners point to neighborhood stability and safety as key factors. In addition, it is a top priority that West Point City officials and staff continuously strive to provide an environment where parents can raise their children safely and peacefully.

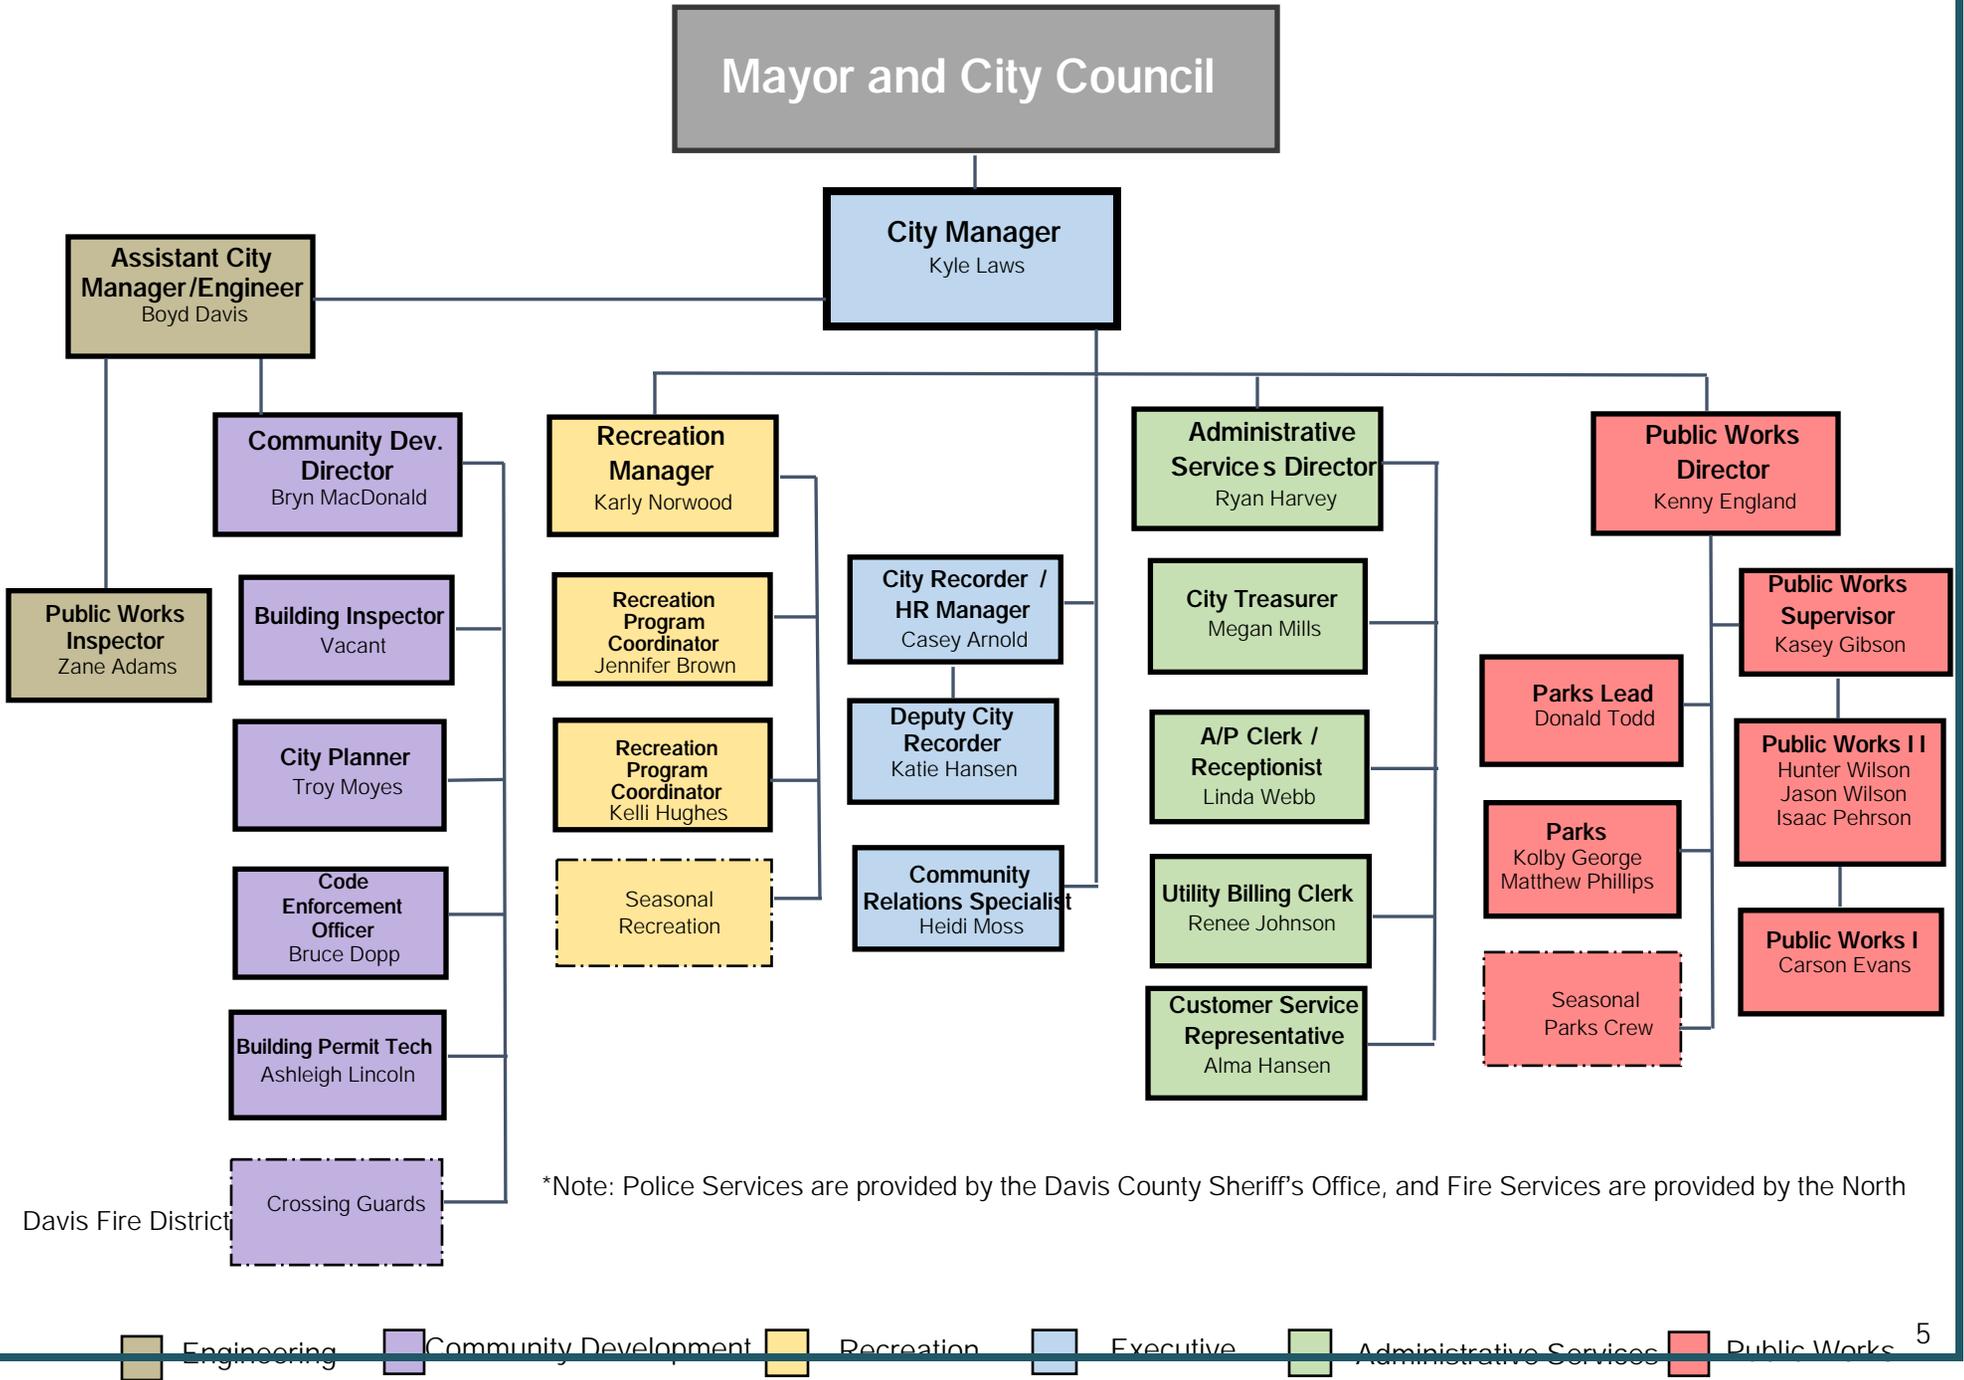

This emphasis is based on the premise that the more connected citizens become to their neighborhoods, the less of a problem crime and other dangerous factors will become. So far, these results have allowed us to boast a crime rate that is significantly lower than the Davis County average.

Strategic Goals and Priorities

“The mission of West Point City is to enhance the quality of life in our community by providing the structure, environment, and services that promote the general health, safety and welfare of each resident.”

The City Council has established two tiers of policy priorities that help to further the mission of West Point City. These priorities guide staff to focus and resource allocation and represent the Council’s long-term strategy for future management and development of the City.

Organizational Values

We value, encourage and seek citizen feedback as an important element of the basis of decision making.

We value and seek to develop methods for providing services which are fiscally and organizationally efficient.

We value our employees and seek to recruit and retain the finest professionals available in their respective fields.

We value our community's rural and agricultural roots and seek to preserve this heritage through responsible planning and the preservation of open space.

We value responsible and top-quality economic and residential development and expect such development to support its share of the burden associated with providing services to the community.

We value the constant search for better methodologies and policies. As such, we encourage the on-going education of our staff and officials.

We value decision making which favors the interests of the general community.

Department Descriptions

The current structure of the City consists primarily of five departments: Executive, Administrative Services, Public Works, Engineering, Community Development, and Recreation.

Executive

The City Manager serves as the Executive Department Head. Major functions within this department include city administration, economic development, public relations, legal services, contract administration, recorder's office/elections, human resource management, public safety, special events, and overall departmental supervision. The main City goals that relate to this department are Community-Compatible Economic Development, Community Celebrations and Events, Open and Responsible Government, and Regional Cooperation, Coordination, and Involvement by Council and Staff.

Administrative Services

The Administrative Services Director leads this department which includes finance and accounting, treasury, risk management, utility billing, purchasing, accounts payable, accounts receivable, and emergency management. The main City goals that relate to this department are Fiscal Balance and Accountability, and Active Emergency Preparedness.

Public Works

The Public Works Director oversees this department. Major functions include road development and maintenance, infrastructure improvements and repairs, enterprise services delivery and fleet management. The Public Works Department is also responsible for the development, operations, and maintenance of parks, trails, cemetery, and other public properties. The main City goals that

relate to this department are Develop, Plan, and Maintain Infrastructure; and Parks, Trails, and Open Spaces.

Engineering

This department is administered by the Assistant City Manager, who also serves as the City Engineer. The department provides engineering support, development review, capital project management, and inspection services for all infrastructure related projects. The main City goals that relate to this department are to develop, plan, and maintain reliable infrastructure for the City.

Community Development

This department is administered by the Community Development Director. The department's primary functions are to provide building services, planning, zoning administration, business licensing, and code enforcement. The main City goals that relate to this department are Sustainable Growth through Vision and Planning.

Recreation

The Recreation Department is supervised by the Recreation Director. The purpose of this department is to administer all recreation programs offered by the City, including football, baseball, softball, volleyball, basketball and soccer. The main City goal that relates to this department is Quality Recreation Programs and Regionally Coordinated Infrastructure and Facilities.

Position Summary

The City Manager (with the consent and advice of the City Council for certain positions) hires personnel necessary to carry out the duties and goals of the City within budget limitations as established by the City Council.

Financial Structure

The City finances are organized into funds. Funds are established to track revenues and expenditures that have a common purpose and to ensure that public money is spent according to its intended use. Enterprise funds are used to track revenues and expenditures associated with pay-for-use services, such as utilities. Governmental Funds are used to track revenues and expenditures associated with general services and projects. City funds are shown in the diagram below.

Debt Service Fund Profile

Services Provided:

Debt service on bonds related to the City Hall.

Major Revenues:

Transfers from General Fund, beginning balance.

Debt Service Schedule

As of June 30, 2025, the City had no debt.

The Utah State Constitution limits the amount of debt allowed by municipalities to 8% of the market value of property inside the City, for water, sewer or electric and to 4% of the market value of property for “Other” purposes.

Total Debt	\$0
Total Debt Margin	\$154,403,427

Economic Conditions

The economy has a significant effect on City revenues. Sales Tax is the revenue stream that is most affected by changes in the economy. Because of this, it is a very good indicator of the state of the economy over time. West Point City receives sales tax from local business activity as well as statewide sales. The City uses past years of Sales Tax collections to predict what will happen in the future. Because Sales Tax varies with the strength of the economy, the City uses last year’s collection of Sales Tax to predict what will happen for the next Budget Year. This method is used for most revenue sources for the upcoming budget year. The Sales Tax collections trend is as follows:

The other large revenue sources in the City include Property Taxes, Energy Sales, Building Permits and Class C Roads. The Property Tax budget only went up because the City approved a small tax increase; otherwise all new revenue comes from new growth. That number is given to the City from the County. Both Energy Sales and Class C Roads Revenue have remained fairly consistent, so the Budget was increased only slightly. Building Permits, however, have been increasing dramatically as new development in the City has been happening at a greater rate.

Budget Process Responsibilities

West Point City Citizens provide input to elected officials about City services and use of City resources.

The City Council provides policy direction to the City Manager. They also hold council work sessions and public hearings on the tentatively adopted budget. The Council approves fiscal policies and tax rates.

The City Manager prepares and presents the budget to the Mayor and City Council for their review and adoption. He oversees the budget process and ensures that proposed expenditures do not exceed projected revenues. The City Manager also holds departments accountable for expenditures, ensuring they are within departmental budget appropriations.

Department Heads prepare budgets based on allocated revenues and policy direction. They are also responsible for ensuring departmental expenditures are within budget appropriations.

During the year, if an expenditure request is expected to require an over-all budget increase, it is brought forward to the City Council for approval as part of the Amended Budget. This Budget is usually passed in May, prior to the approval of the Tentative and Final Budget for the following Fiscal Year.

APPENDIX

Fiscal Management Practices

Basis of Budgeting

Basis of budgeting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. All Governmental Fund budgets are accounted for using modified accrual accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available and qualify as current assets. Enterprise funds are accounted for using full accrual accounting.

Financial Audit

At the close of each fiscal year, the City is audited by an outside firm. At the conclusion of the auditing process, the auditor presents the City Manager and the City Council with the audited Annual Financial Statements. This report provides statements of City assets, liabilities, expenditures, and revenues for the fiscal year, with auditor concurrence that the statements are fairly presented in accordance with Generally Accepted Accounting Principles (GAAP).

Amending the Budget

Utah State Law allows cities to amend their budgets if the need arises during the year. The process of amending the budget begins with the City Manager's evaluation of need. He then presents proposed amendments to the Council and provides explanation of the proposed amendments. The Council is required to hold a public hearing prior to considering approval of amendments to the budget.

Long-Term Financial Policies

West Point City's guiding budgetary principles are as follows:

- West Point City exists to serve the needs of its citizens. Since these needs are continually changing, the City should consistently receive citizen feedback based on both long-term and current needs.
- West Point City should strive for economy, efficiency and effectiveness in providing basic services. Thus, these services should not cost more than similar services provided by private industry.
- West Point City should strive for generational fairness. Thus, each generation of taxpayers should pay its own fair share of the long range costs of these city services.
- West Point City should finance services rendered to the general public; such as police, public works and parks from revenues imposed on the general public (i.e. property and sales tax). Special services rendered to specific groups of citizens should be financed, as much as possible, by user fees, impact fees, license and permit fees or special assessments.
- West Point City should balance all budgets annually, in accordance with the requirements of Utah Law. A balanced budget is defined as a delineation of annual budgeted priorities where authorized expenditures do not exceed projected revenue.
- West Point City should allow for a reasonable operating surplus (fund balance) to accumulate for the following purposes:
 - To provide funding for capital projects.

- To provide a cushion to absorb emergencies such as floods, earthquakes, etc.
- To provide for unavoidable shortfalls in revenues.

Fund Balance: Fund balance is defined as the difference between assets and liabilities reported in a governmental fund. While fund balance is a good way to evaluate the health of the entity, it is not an indicator of actual cash reserves held within the entity. Fund balance consists of all assets, whether cash receipts, inventories, supplies, or donations such as donations of property or of infrastructure by developers, which is recognized as “revenue.”

In an enterprise fund, fund balance, also known as net assets, will be affected by accounts receivable and payables, which are not actual receipts or payments of cash, but recognition of the underlying transaction that will allow for the receipt or payment of cash in the future. Fund balance will also be impacted by the recognition of major assets such as infrastructure, which is recognized as an asset

Capital Expenditures: Money spent acquiring or maintaining fixed assets, such as land, buildings, and equipment. The City does long-range planning for capital improvements annually to look at capital expenditures and continue to spread capital improvement funds among multiple departments to try to meet the most urgent needs.

Compliance with Fiscal Standards: The West Point City budget process complies with the Utah Fiscal Procedures Act and Generally Accepted Accounting Principles (GAAP).

Modified Accrual Basis: The City uses modified accrual accounting for all governmental funds. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available and qualify as current assets. Expenses are recorded when the related liability is incurred.

Fund Accounting: The City follows principles of fund accounting where each fund is defined as a separate accounting entity. Each fund is a self-balancing set of accounts established for the purpose of carrying out specific activities in accordance with clearly defined restrictions and/or limitations.

Budget Document: The operating budget is the annual financial plan for the City. It will serve as the policy document of the City Council for implementing Council goals and objectives. The budget shall provide the staff with the resources necessary to accomplish City Council-determined service levels. A final budget for the following fiscal year shall be approved by the City Council no later than the statutory deadline of June 22 of each year, unless a Truth in Taxation hearing is to be held.

Balanced Operating Budget: The City shall annually adopt a balanced budget in which operating revenues are equal to, or exceed, operating expenditures. Any year-end operating surpluses will revert to unappropriated balances for use in maintaining reserves and/or funding capital projects.

Investment of Funds: All investments are made in strict conformance with the Utah Money Management Act, which governs the investment of public funds.

Revenue Stabilization Reserves: West Point City will maintain a revenue stabilization reserve at a level equal to the maximum permitted by law, which is currently 25% of the General Fund budgeted revenues. Any funds in excess of this maximum will be made available for capital projects, as approved by the City Council.

Debt Policy: West Point City shall combine a pay-as-you-go strategy with long-term financing to keep the debt burden low. West Point City shall finance debt in such a way as to promote equity of burden among current and future residents. West Point City will therefore seek the most practical and cost efficient financing available.

Capital Improvement Plan: The City has developed a five-year capital improvement plan which is updated yearly in order to anticipate long term capital needs. The capital improvement plan helps establish capital improvement priorities and supports the forecasting of future year expenditures.

Fees: The City Council shall review fees annually to ensure that fees reflect the targeted level of cost recovery. The fee schedule is adopted annually as part of the budget process.

Compensation: The City conducts a compensation study every two years, or as needed, with the intent of keeping salaries competitive with the market. Adjustments to the City Compensation schedule are approved by the City Council.

Risk Management: The City is a member of the Utah Local Governments Trust (ULGT), a pool of local governments created to provide self-funded insurance to municipalities. The City operates a risk management and loss prevention program to minimize losses.

Financial Reporting and Monitoring: The Finance Department will provide quarterly financial reports reflecting the operations of individual funds. Such reports contain information by which City Management can manage city departments and services effectively. These reports are in part designed to alert impending shortfalls in revenues or overruns in expenditures.

Revenues & Taxation Policy

West Point City should estimate revenues conservatively to avoid unexpected deficits and to provide a funding source for capital needs. West Point City should not use one-time revenues to fund on-going services. West Point City should aggressively collect all revenues or taxes due. West Point City should annually review user fees, impact fees, license and permit fees, and special assessments to:

- 1) Determine that the full long-term service costs are not being subsidized by general revenues or passed on to future generations of taxpayers.
- 2) Determine the subsidy level of some fees.
- 3) Consider new fees.

West Point City should seek to maintain a stable tax rate; including maintaining the property tax rate when assessed values increase. Otherwise, increased taxes and fees should only be considered when:

1. Inflation has clearly forced operating costs upward faster than tax growth.
2. Tax revenues are forced down because of an economic downturn.

3. New services are instituted to meet citizen needs.
4. Additional personnel are needed to meet citizen expectations/needs.
5. West Point City should aggressively yet responsibly pursue commercial growth in some areas of the city to assist in supporting the tax burden.

Financial Health Indicators

The International City/County Management Association (ICMA) produces a manual entitled “Evaluating Financial Condition: A Handbook for Local Government.” Within this manual, various indicators and methods for analysis are outlined and recommended. According to the ICMA, the financial condition of a municipality can be defined as “...a government’s ability in the long run to pay all the costs of doing business, including expenditures that normally appear in each annual budget, as well as those that will appear only in the years in which they must be paid.” By recording the necessary data and observing these indicators, certain warning trends can be seen and remedied before it becomes a problem for the City. The following indicators were chosen to measure the financial health of West Point City:

- Revenues per Capita
- Restricted Revenues
- Revenue Shortfalls & Surpluses
- Expenditures per Capita
- Liquidity
- Long-term Debt

Revenues Per Capita

Analysis: (Total operating revenues include the General Fund and Class C Road Funds.) Examining per capita revenues shows changes in revenues relative to change in population size. The consumer price index (CPI) is used to convert current total operating revenues to constant total operating revenues to account for inflation and display a more accurate picture of accrued revenues.

Description	2017	2018	2019	2020	2021	2022	2023	2024
Net Op. Rev. (Actual \$)	\$2,972,560	\$3,236,047	\$3,511,054	\$3,589,763	\$4,336,739	\$4,667,114	\$5,122,030	\$5,494,162
Consumer price index (CPI)	243.6	248	250.6	238.6	251	253.7	256.4	259.1

Consumer price index (CPI)	124.7	127.0	128.3	122.2	128.5	129.9	131.3	132.7
Overall CPI	1.25	1.27	1.28	1.22	1.29	1.30	1.31	1.33
Net Op. Rev. (Constant \$)	\$2,383,173	\$2,548,387	\$2,736,268	\$2,938,310	\$3,374,363	\$3,592,776	\$3,901,453	\$4,141,296
Population	10,603	10,753	10,957	10,963	11,430	11,892	12,479	12,726
Net Op. Rev. per Capita (Constant \$)	\$225	\$237	\$250	\$268	\$295	\$302	\$313	\$325

The following chart illustrates this relationship between population and Revenues per Capita from 2017 to 2024.

The following chart illustrates the same relationship while accounting for inflation using the consumer price index (CPI). Since 2017, actual net operating revenues have increased slowly as the population has grown.

Restricted Revenues

Analysis: (Restricted revenues include Class C Road Funds.) As the percentage of restricted revenues increases, a local government loses its ability to respond to changing conditions and to citizens' needs and demands. Increases in restricted revenues may also indicate overdependence on external revenues and signal future inability to maintain service levels.

Description	2018	2019	2020	2021	2022	2023	2024
Restricted operating revenues (Class C Road Fund)	\$390,212	\$417,262	\$410,916	\$454,248	\$485,347	\$503,833	\$559,000
Net operating revenues	\$3,236,047	\$3,511,054	\$3,589,763	\$4,336,739	\$4,667,114	\$5,122,030	\$5,494,162
Restricted operating revenues as a percentage of net operating revenues	12.1%	11.9%	11.4%	10.5%	10.4%	9.8%	10.2%

Class C Revenues have increased fairly steadily since 2018.

Revenue Shortfalls or Surpluses

Analysis: (Net operating revenues include General Fund and Class C Road revenues.) This indicator examines the differences between revenue estimates and revenues actually received during the fiscal year. A shortfall or surplus could be a result from the local government not amending its revenue budget during the course of the year when new programs are implemented or other major operational changes. Major discrepancies that continue year after year can indicate a changing economy or inaccurate estimating techniques. Shortfalls may indicate inefficient collection procedures, or that high revenue estimates are being made to accommodate political pressures. If revenue shortfalls are increasing in frequency or size, a detailed analysis of each revenue should be made to pinpoint the source.

Description	2018	2019	2020	2021	2022	2023	2024
Actual net operating revenues (General Fund and Class C Road Fund)	\$3,236,047	\$3,511,054	\$3,589,763	\$4,336,739	\$4,667,114	\$5,122,030	\$5,494,162
Budgeted net operating revenues	\$2,730,260	\$2,965,682	\$3,244,283	\$3,551,486	\$3,858,689	\$4,049,083	\$4,357,948
Revenue shortfalls or surpluses	\$505,787	\$545,372	\$345,480	\$785,253	\$808,425	\$1,072,946	\$1,136,214
Revenue shortfalls or surpluses as a percentage of actual net operating revenues	15.6%	15.5%	9.6%	18.1%	17.3%	20.9%	20.7%

West Point City has consistently operated with surpluses. This is a result of conservative budgeting and an improved economy.

Expenditures Per Capita

Analysis: (Total operating expenditures include the General Fund and Class C Road Fund.) Changes in per capita expenditures reflect changes in expenditures relative to changes in population. Increasing per capita expenditures can indicate that the cost of providing services is outstripping the community's ability to pay, especially if spending is increasing faster than the residents' collective personal income. If the increase in spending is greater than can be accounted for by inflation or the addition of new services, it may indicate declining productivity - that the government is spending more real dollars to support the same level of services.

Description	2018	2019	2020	2021	2022	2023	2024
Net operating expenditures. (General Fund only)	\$1,836,969	\$1,967,630	\$2,149,994	\$2,599,207	\$2,668,779	\$2,873,056	\$3,122,582
Consumer price index (CPI)	248	250.6	238.6	251	253.7	256.4	259.1

Net Op. Exp. per Capita (Actual \$)	\$171	\$180	\$196	\$227	\$224	\$230	\$245

Net operating expenses per capita have remained relatively flat over the past seven years. This suggests that expenses are remaining relatively proportional to population growth.

Liquidity

Analysis: A good measure of a local government's short-run financial condition is its cash position. Cash position, which includes cash on hand and in the bank, as well as other assets that can be easily converted to cash, determines a government's ability to pay its short-term obligations. If this ratio is less than one to one (or less than 100 percent), the entity is considered to be facing liquidity problems.

Description	2018	2019	2020	2021	2022	2023	2024
Cash and Short-term Investments	\$2,313,601	\$3,119,799	\$3,005,756	\$2,171,446	\$1,723,597	\$2,341,746	\$1,957,772
Current Liabilities	\$1,004,262	\$1,696,194	\$1,524,014	\$1,182,990	\$502,000	\$850,745	\$726,574
Cash and Short-term Investments as a % of Current Liabilities (General Fund)	230.4%	183.9%	197.2%	183.6%	343.3%	275.3%	269.5%

Cash and short-term investments as a percentage of current liabilities have remained at healthy levels for many years, highlighting the City's ability to pay off short-term obligations.

Long-term Debt

Analysis: An increase in net direct bonded long-term debt as a percentage of population can mean that the government's ability to repay is diminishing assuming that the government depends on the property tax to pay its debts. Long-term debt should not exceed the local government's resources for paying the debt. If this does occur, the local government may have difficulty obtaining additional capital funds, may have to pay a higher rate of interest for them, and may have difficulty repaying existing debt.
